

Bosch Australia Manufacturing Solutions (BAMS) Quality Policy

Bosch Australia Manufacturing Solutions (BAMS) is committed to supplying our customers fault free, reliable products, solutions and services.

Product quality at BAMS is determined by the quality of the concept and design, the quality of the manufacture and the quality of the advice and support provided to customers. We are guided to achieve these outcomes by the application of the Bosch Quality Principles.

BAMS is committed to comply with all necessary legal and customer requirements while constantly striving to improve our processes, products and service.

BAMS sets its quality objectives in line with customer needs and expectations and in the context of market conditions. The management of BAMS is committed to supporting a quality management system compliant to ISO 9001:2015 and all employees are made aware of expectations and requirements of the quality management system.
